

**Get the best treatment and best hospital for your health issues.**

A hospital comparison web app which compares treatments at different hospitals and gives real user feedback. This helps people by telling them about the best hospitals for their illness so that they get the best treatment for their disease.

### Geo-location

We will take the users geo-location and list the hospitals accordingly.

### Comparison

The hospitals with better and more positive user feedback will get sorted above the others.

### Advance Filter

One stop solution for all. A user enters the search term and gets results sorted accordingly.

**VENUE**

Langara Collage At T-Building  
12 PM on 4 August 2019
